To the Widows of deceased Officers, Soldiers, Mariners, and Marines, who were out in the Land or Naval services of the United States, during the War that terminated in American Independence.

8TH EDITION OF SHIPWRECKS AND DISASTERS AT SEA.—The eighth edition of this popular work has just issued from the press of S. N. DICKINSON, 52 Washington street, where it may be had in large or small quantities. This volume of 432 pages, royal 12mo, contains 100 spirited engravings, 30 to 40 of which are large, and at once convey to the mind the perils and dangers of the wave-tossed mariner while on the raging sea, or the more fearful picture of speedy destruction as his gallant vessel drives furiously upon some rock bound coast amid horrid cliffs and yawning caverns. The work has received many favorable notices from the editorial fraternity, and is considered as surpassing any work of the kind ever before got up in this country, or in Europe. Independent of the merits of the work itself, the price, no doubt, has contributed greatly to its success, for the publisher can assert, without fear of contradiction, that it is the cheapest book ever published. Dealers in town and country are invited to call on the publisher, as they will be supplied on the most liberal terms. eStf june4

POETRY.

ON THE DEATH OF MALIBRAN.

By Jane Anne Porter.

Mourn! for the soul of melody hath fled.
Mourn! for the gifted Malibran is dead.
Ye Muses all! Apollo's vocal train!
Flow fast your tears, though tears, alas! are vain.
Melpomene, dark-eyed and pensive fair!
Be thine the task to tell of our despair.
To elegiac numbers frame the solemn lay
Of dire lament for her whose life hath pass'd away!

How like the lark that sudd'n upsprings on high,
To greet with hymn-like song his native sky,
Soaring along on pinion strong and free
Till downward struck by fowler's gun, was she
Whom we deplore! The fowler, ruthless Death,
Who robbed the lovely Malibran of breath,
And still'd the voice that pour'd its music to the morn,
And left a list'ning crowd heart-stricken and forlorn!

Alas, for Genius! often thus its doom,
A life of weary toil! an early tomb!
Ah! who would win a world's applause, to be
The victim of that world's idolatry?
More blessed the humble plant that hides its head
Beneath the forest's-shades from tempests dread,
Than e'er can be the proud aspiring statelier oak
That rears its haughty front to brave the lightning's stroke!

Lament, ye Pleiades, for your lost was found;
But she is gone again, and the sweet sound
Of her entrancing voice is hushed and mute
The thrilling chords of her now shatter'd lute.
Weep dewy tears down on the drooping flow'rs,
That miss her presence in their fragrant bow'rs!
Veil your bright eyes, and wildly tear your glitt'ring hair,
Your sister-star once more hath vanish'd from your sphere!

DIAMONDS.

It is usual to describe the most celebrated diamonds merely by reference to their size and value. The following is a statement of their relative weight:—

The Great Mogul is the largest of all known diamonds. It weighs 279 carats, two sixteenths.

The next is the Grand Duke of Tuscany. It is one of the Austrian crown jewels, and weighs 139 carats and a half.

The Regent, belonging to the French crown, is the third in order. This diamond weighs 136 carats.

The Savoy, which, it was said some time ago, was about to be purchased by Louis-Philippe, to adorn the hilt of his sword, is in the possession of a Russian nobleman. This diamond weighs only 55 carats.

The Great Mogul is nearly as large as a walnut, and the Regent is as large as a good-sized nut

THOUGHTS AND SENTIMENTS.

Reviewers.—The reviewers are a set of miserable gourd-painters—they are the statues of the god Terminus that stand upon the marches of science without either arms or legs. As Minerva with her magic wand changed Ulysses, so they, with their critical baton, would fain change all authors into beggars like themselves.

The Beggar's Heaven.—There is one heaven which is open to all, even to the meanest beggar—the Heaven of the *Toilette*—for by some chance a glittering rag is wafted to him with which he patches up his most needful rents; and with this he struts, regenerated, before his brother beggars, and offers himself, self-complacent, to their silent admiration.

Music.—Holy music reveals to the souls of men a past which they never have known, and a futurity, which in this life at least, they never can know.

Rule of Life.—Man should carry life like a spirited falcon in his hands, allowing it to mount into the ether, and being able to call it back again to earth, whenever it is necessary.

"A vote of the Senate of the United States has attached to my name a disgrace which I am fully convinced no time or no efforts of mine will ever be able to efface."—Extract from Gen. Harrison's Letter dated July 16, 1816. See Niles' Reg., Vol. 10, page 424.

"SCARCITY OF MONEY."

In our late remarks upon the existing want of money, or rather *capital*, we omitted to notice one or two circumstances, which more particularly affect this city. One is, that in some parts of the interior, especially in Maine, the country traders have so generally entered into speculations in timber lands and other real estate, in which they have invested the proceeds of goods purchased here, that they are unable to make their usual payments to their creditors, the wholesale dealers in this city. This deficiency, which is of very considerable extent, has increased, in no small degree, the pecuniary embarassments of those, who are more particularly concerned in the Eastern trade.

But another, and a more important circumstance remains to be noticed. This is, that, by certain most injudicious legislative measures, an immense amount of capital has been absolutely *driven* from this city,—*forced* from our own use and benefit, into other hands and other cities, where the commercial spirit is more liberal, and the policy more judicious and comprehensive. We predicted, that such *would* be the consequence of the restrictive bank laws; and such *has* been the effect which they have produced. Certain persons, who wished to monopolize all the *shaving*, or to secure all the advantages arising from the loans of money over six per cent., under color of *commissions, guaranty*, and other mercantile technicalities, united with certain shallow, but perhaps honest politicians, to prevent such banking transactions, as would enable the trader of moderate capital to procure money on 'change, of the brokers and capitalists, at the least possible advance beyond six per cent. Such embarrassments were accordingly contrived, that monied men, instead of contending against them, preferred going to New York, where seven per cent. is permitted to be taken by law. A trip to New York is now made with so much ease, and in so short a time, that negotiations are almost as readily made there as here. Besides, so many Boston men have become established in that city, that almost every capitalist has a son or some other confidential friend there, with whom he can safely trust his funds, and on whom he can depend for making secure and profitable investments. We are told, from good authority, that several of our principal capitalists, who formerly loaned their money in Boston, have now invested nearly all their monied property in New York, upon mortgages at seven per cent., or in other safe and and more productive securities, there and elsewhere. This has transferred a large amount of active capital from the use of our own merchants, to those of other cities, and has, no doubt, contributed towards the unprecedented demand for money, which now exists in Boston.

We before stated, that a prosperous state of trade always makes money "scarce," as it is called; that is, that it creates a demand for capital, and enhances the rate of interest. During a part of the European war which followed the French revolution, when we had all the "carrying trade," and when we supplied the belligerents with provisions and other stores, to the enrichment of our merchants and farmers, money was worth eighteen per cent. a year. Whole cargoes, invoices of imported manufactures, produce, &c. were sold at auction, and the notes of the purchasers were immediately offered on 'change by the auctioneers, (who were then our money brokers,) at one and a half per cent. a month. This will be perfectly in the recollection of our older merchants. Indeed, it is too plain to require discussion, that a prosperous state of trade increases the number of traders,—causes every trader to extend his business,—employs more capital,—makes it more in demand, and therefore, apparently more scarce and more difficult to obtain,—and consequently enhances the marketable rate of interest. *This is the present* state of things. Under our present administration of the government, the country has advanced to the highest state of prosperity. Trade, manufactures, agriculture, every thing is flourishing;—and the natural consequence is, that capital is in great demand, interest is unusually high, and money is apparently "very scarce." That this proceeds from prosperity, and not from any opposite cause, is proved, by their being no bankruptcies of any consequence among our traders, notwithstanding the long and severe pressure. There never, perhaps, was a series of years, since the independence of this country, in which there were so few failures, in proportion to the amount of business and the number engaged in it, as there have been since the measures of the present excellent administration have been in full and complete operation. Let all honest, thinking, independent citizens bear this in mind, when they put in their votes at the coming elections.

TO THE FARMERS, MECHANICS, AND OTHER WORKING-MEN.

It is an important question, to be answered by this numerous and respectable class of citizens, the strength and dependence of the nation, whether they do not now enjoy, —whether they have not enjoyed for several years past,—more prosperity, more happiness, more of the advantages to be drawn from a free government, than have ever before been enjoyed in this, and probably in any other country? We would ask the farmer, if his produce has ever been more in demand, or ever brought higher prices, than it does now? Do not his pork, his beef, his corn, his oats, his hay, his wood, and every other article of his growing, command a quick sale, a high price, and ready money? Did he ever live better or easier? Were he and his family ever better clothed, or more bountifully supplied with all the comforts and even luxuries of life? Were his children or the children of his older neighbors ever so well educated as now? Were the public or private schools ever so *good before*,—or were the means of establishing children advantageously in life ever equal to what they now are? Were farmers ever more respected, ever more influential in society, ever more important in political affairs, than at present?

We would put the same questions, substantially, to the mechanics, the manufacturers, and other branches of productive industry. Did the various mechanical arts ever find better and more constant employment? Were the

prices of work ever higher? Were journeymen's wages ever higher? Did manufactures ever command a quicker sale, or produce greater profits? Have the prices and the profits ever been so regular and certain before, or was there ever so much safety, so much certainty of calculation, as within these four or five years past? Was the equality of all classes, in rank, respectability, and influence, ever so manifest and acknowledged, as since the accession of Andrew Jackson to the Presidency, and the ascendency, in this country, of the democratic party and of democratic principles?

To all this, if they reflect coolly, candidly, and honestly, they must answer *No*. They must acknowledge, that they were never more prosperous, never more respectable, never more happy. What, then, do they want, but a *continuance* of these advantages? The prosperity of the people depends on the government;—on the form of government, and the purity and ability with which it is administered. There is no evidence so good, so certain, of a wise and honest administration of any government, as the prosperity of the people,—of the great mass of the people,—of the laboring classes. We have that evidence now, in the most complete manner, in this country. Let us secure its continuance;—let us adopt the best measures to preserve this state of unexampled prosperity. Let us, for this purpose, continue the same principles in operation, the same party in power, the same men in office; or those who will tread in the steps of their predecessors, and who will pursue the same course which has led to this enviable state of prosperity. Let us do all we can to keep *out* of power, those who would adopt different measures,—who would pursue an opposite course,—who would destroy this beautiful fabric,—who would put down the common people, and nullify their influence,—who would make the government subservient only to the gain, the power, the advantage of the rich,—whose fundamental principle, as a party, is, "*Let the government take care of the rich, and the rich will take care of the poor.*" FARMERS! MECHANICS! LABORING-MEN!—pause, reflect, deliberate;—act like rational men, like intelligent citizens, like firm patriots;—show that you know your own interest, and the interest of the country, and that you have the virtue, the independence to promote and sustain them. "If there be any virtue, if there be any praise, THINK ON THESE THINGS!"

Freemen Beware!!—It has been ascertained that all the decency and piety of whiggism has had an agent travelling on the Cape for the purpose of influencing voters. He denounces Henry Crocker, Esq. as an infidel, and of course holds up Mr Reed as a pattern of piety.

Unfortunately for them, however, their plot has leaked out, and the democracy will not be permitted to suffer by this vile charge against their favorite candidate—although late made, and cautiously circulated, it will recoil on the heads of those who started it.

The *Reed will shake in the wind*, and totter and fall! The freemen of District No. 11, will elect Henry Crocker their representative to Congress, our word for it.

CAPE COD.

The *Star* that illumined the Plymouth Memorial of the 10th of Sept. last, and brought to view the name of Hon. George Bancroft, was a real comet, and notwithstanding its HIGH orbit, it is predicted that if not already, it will eventually, sting itself to death with the end of its *tail*.

HERSCHELL.

MEETING OF THE IRISH CITIZENS OF BOSTON.

At a large and respectable meeting of the Irish citizens of Boston, held at Montgomery Hall, on Tuesday evening the 8th inst. of which Mr John C. Tucker was Chairman, and Mr William Bell Secretary, the following Resolutions were passed with unanimous acclamation:—

Resolved, That in the honorable, legitimate, and conscientious exercise of the elective franchise, we recognize one of the most essential and important duties of a patriotic citizen;—a sacred duty, which, amidst the violent, intemperate, and vitupe. rative language used by political partizans, and their venal organs of the public press, requires the most serious and reflecting deliberation, in order to discharge it with care and fidelity.

Resolved, That we, in accordance with our solemn oath of allegiance to the constitution of these United States, hold it to be our bounden duty to exert, legally, all our influence and efforts in the endeavor to moderate and allay the violence of that baleful party spirit, which is evidently disseminating the seeds of discord and dissension in this happy country,—an evil-working spirit, which, if not timely checked and overthrown, will in our opinion, eventually undermine and subvert our free institutions.

Resolved, That in the opinion of this meeting, it is not only inconsistent with the true spirit of the constitution, but extremely absurd, to allow the Presidential question to interfere or come in coalition with the elections of our popular assemblies:—Therefore, impressed with this conviction, we are determined in making choice of Electors, to vote for those whom we may deem favorable to the men we think most worthy for the high and dignified stations of President and Vice Presidents of the United States:—but in the choice of municipal officers of this city, we never shall inquire how the candidates stand affected on the Presidential question, but vote for the most deserving and worthy, without distinction of sect or party.

Resolved, That prepossessed with this opinion, we have come to the determination of giving our strenuous support, at the polls, to Marcus Morton for Governor of this State, and to William Foster as Lieutenant Governor, gentlemen eminent for their patriotism, talent, and liberality.

Resolved, That the wise and judicious nomination of Martin Van Buren for President, and of R. M. Johnson for Vice President of this great Republic, meets our warmest approbation,—because we consider them as incorruptible and honorable men, who are worthy of the highest honors which their fellow citizens can confer upon them; that we omen, from their auspicious administration, general good and national prosperity will emanate.

Resolved, That a Committee of twenty be appointed to select from the different tickets for Senators, and Representatives, presented by our fellow-citizens, the names of those liberal, enlightened and high minded men, who, through good and evil report have firmly sustained the Supremacy of the Laws, and their country's good; for they, and they only, are entitled to our votes at the coming election.

Resolved, That in pursuing the above stated course, we utterly disclaim any intention of forming a distinct party from our fellow citizens; but seriously deprecating the sad evils of that spirit of party which unhappily prevails, we ardently hope to secure to ourselves and our descendents, the benefit of those free and benign institutions which were purchased by so prodigal an effusion of American and Irish blood—exalted and freedom-guarded institutions founded on the immutable principles of justice, that are doubly dear to us, because of our having experienced, in our own native land, the grinding oppression of that British power which sought to enslave America; but, thank Heaven! sought in vain.

Resolved, That in seeking candidates for office, the qualification required by us shall be—"*Is he capable, is he liberal, is he honest?*"—and that in his political faith he shall be strictly guided by the spirit of the laws and the genius of the constitution, and not by the shallow and unhallowed sophisms of a party whose minds are tettered by prejudice and perverted by interest. For such a candidate let every good son of Green Erin vote.

Voted, That the foregoing Resolutions be signed by the Chairman and Secretary, and published in the Boston Morning Post and Boston Pilot. JOHN C. TUCKER, Chairman.

WM. BELL, Secretary.

HARRISON'S ADDRESS TO HIS ARMY.

Soldiers of the West, advance!
Proudly let your coursers prance!
Gaily glimmers sword and lance,
In this glorious fray.

Listen! 'tis the horrid yell!
Of the copper fiends of hell!
Out and slash the rascals well,
On this happy day.

Strike! the blow of vengeance dire,
Strike! for alter, wife and sire,
Raise the shout of battle higher,
See them on their way.

Forward! every mother's son,
Listen! 'tis the signal gun!
Stand men! *I think I'll run,*
'Tis dang'rous to stay!

Let our banner proudly float!
Hail the gorgeous PETTICOAT!
Woman's voice shall swell the note
Of Granny's victory!

MARKS.

"*That are Flag*" and "*those are Oysters.*"—We are obliged to our neighbors of the Gazette for the use of their flag, and are now ready for the oysters. The other trifle we'll say nothing about at present, considering the scarcity of money.

The whigs, a faction composed of artful, slanderous and deceptive *minorities*, are and have been

IN FAVOR OF

vesting *the power to regulate currency* in a BANK *executive*, chosen not by *the people*, but by voters who associate together under a government strictly "*based on property*," and who vote according to dollars and cents,

AND OPPOSED TO

the regulation of the currency by LAWS of Congress, executed by the constituted executive officers selected *by the people*.

IN FAVOR OF

a league of Branch BANK tools, for *carrying into execution* the secret edicts issued by *the executive of the* BANK, from his marble palace,

AND OPPOSED TO

the EXECUTIVE OFFICERS of the U. S Treasury Department, carrying into execution the laws made by Congress to regulate currency and to disburse and distribute the public money.

IN FAVOR OF

the late accumulation of the people's specie in the vaults of the BANK to enable *the executive of the* BANK to whip and scourge the people into a support of its monopoly by panics,

AND OPPOSED TO

the executive chosen by the PEOPLE requiring specie for their public lands, when, according to whig senators themselves, the receipt of Bank notes endangers the whole revenue accruing from their sale, and converts solid public property into rotten rags.

IN FAVOR OF

the seizure of the people's money by the BANK executive, as in the case of the dividends of stock held by the people of the United States,

AND OPPOSED TO

the successful endeavors of the *executive*, CHOSEN BY THE PEOPLE, to enforce public treaties, and compel an insolent nation to indemnify our plundered merchants for seizures of their property.

IN FAVOR OF

the executive of the BANK hiring bankrupt members of Congress and editors with loans of money, belonging in part to the people of the United States,

AND OPPOSED TO

confiding in *the executive chosen by* THE PEOPLE, the execution of laws necessary for the common defence, "*though the enemy were at our gates battering down the walls of the capitol.*"

IN FAVOR OF

the assumption of legislative power by the BANK executive; as in his secret edicts for "*regulating*" currency by alternate expansions and contractions in the money market; and in his illegal circulars to his branch tools respecting receipts of illegal branch drafts in payment of public dues,

AND OPPOSED TO

Jackson's policy of making Congress return to the discharge of its own duties, by passing proper LAWS for regulating the currency, for coining gold, for regulating its value, and for regulating the receipt of money for public dues.

IN FAVOR OF

BANK espionage, proscription, bribery and panic: in favor of BANK dictation and the destruction of all FREEDOM OF ELECTION, and the sacred institution of *Vote by Ballot;* which they put down by ☞PINK BALLOTS☜ and ☞PANICS☜ got up with the express view "*to direct, control, counteract and awe the regular deliberation and action of the constituted authorities,*" *chosen by* THE PEOPLE, and to dictate to, and to overawe *the people themselves* at the polls; whence Webster would exclude them by property qualifications, in order that the rich may be INTERESTED (like himself) in sustaining laws violating the equal rights of the people; and that, too, under the insulting and infamous pretence, that they look on property as prey and plunder, and are, at all times, ready for violence and revolution,

AND OPPOSED TO

the election of their own chief magistrate by THE PEOPLE themselves; which they are now trying to defeat by clothing the Federal LEGISLATURE with power to exercise the RIGHT OF SUFFRAGE,—a prerogative of THE PEOPLE; thus aiding the legislature in usurping the dearest right of freemen, and aiding the further progress of Legislative encroachment upon the *rights* of the people, the reserved *powers* of the states and the *constitutional responsibility* of the executive to the sovereign power, the people.

IN FAVOR OF

BANK dictation of the successorship; one a hireling member of Congress, being selected to cheat the people out of their votes, while amusing his owners with "the sublime spectacle of solitary grandeur" at their cost; and another even more impotent tool, who has voted for selling white men into slavery, being dragged by (whig) white men through the streets of the very city where the BANK executive sits in his marble palace,

AND OPPOSED TO

a reduction of taxes to the wants of government; or the dismissal of a large army of Custom House Officers from the public service, where they are no longer wanted, and can only collect taxes to distribute them again: thus burdening the people with their support only to enable the whigs to rob Peter to pay Paul, and to distract the union with scrambles for the people's money.

Mr Greene—Will you have the goodness to inform me whether I may be allowed to vote or not at the coming election? I have been a resident in the city over three years, but for the last two, from some cause, have not been assessed, and consequently my name does not appear on the Ward list of voters. I have not avoided being taxed, but, on the contrary, am happy and ever ready to contribute my part towards the support of government. Where is my redress? R.

Extract from the Revised Statutes.

"Every male citizen of twenty-one years of age and upwards, (excepting paupers and persons under guardianship,) who shall have resided within the State one year, and within the town, in which he claims a right to vote, six months next preceding any election of town, county, or State officers, or of Representative to Congress, and who shall have paid, by himself, or his parent, master or guardian, any State or county tax, which shall, within two years next preceding such election, have been assessed upon him in any town of this State; and also every citizen, who shall be by law exempted from taxation, and who shall in all other respects be qualified as above-mentioned, shall have a right to vote in all such elections; and no other person shall be entitled to vote in such elections.

The selectmen, moderator, or town clerk, at any meeting held for the election of town or other officers, shall be provided with a complete list of the persons qualified to vote at such election; and no person shall vote at any election, whose name shall not have been previously placed on such list, nor until the selectmen, moderator, or town clerk, presiding at such meeting, shall have had opportunity to find such voter's name on the list."

LET US ALL WORK, from now until election is over. Vigilant committees should be formed in every ward, town and school district throughout the State—it is only by activity and exertion that we can bring out our entire strength in November, and, therefore, we should ALL be on the alert—talk to our acquaintances—urge them to the polls, and when there to vote for the democratic candidates—spread newspapers, pamphlets, handbills—disseminate the truth in every form—in short, DO OUR BEST—ALL OF US.

GREAT! GOOD!! GLORIOUS!!!

DEMOCRACY TRIUMPHANT IN PENNSYLVANIA, NEW YORK, CONNECTICUT, NEW HAMPSHIRE AND MAINE.

Returns were received in Boston yesterday morning, by the Steamboat Mail from New York, from all the Counties in Pennsylvania except two; majority for the Van Buren ticket *FIVE THOUSAND!*

According to the whig accounts, stocks, which were *run up* in New York and Philadelphia by the *false* returns published by the whigs, have again *run down*.

The old Keystone is true to herself—her principles, and the nation! Bribery and corruption have failed to accomplish their object, and the cause of the people has triumphed. The New York whig papers, now their deceptions are exposed, are full of apologies for duping their friends. The New York Commercial Advertiser of Thursday, says:

"*Pennsylvania Election.*—It is as we have all along feared in Pennsylvania. We have a letter from Philadelphia by express, written at 9 o'clk last evening, from which we have little doubt that the Van Buren Electors are chosen by from three to four thousand majority. The letter states that our friends were gulled night before last by false intelligence, and most grievously have they gulled us in turn. We lament the result, and the increased disappointment by the premature exultations of our friends. Having, however, not intentionally kept back a word—nor exaggerated a figure—we have no self-reproaches to indulge."

This result, when it is remembered that Pennsylvania voted *against* Mr Van Buren as Vice President in 1832, is proud testimony in his favor.

Both in Maine and New Hampshire, the majorities cannot be less than from 8000 to 10,000!

Returns from Connecticut, from all but seven towns, according to the N. Y. Journal of Commerce, a *whig paper*, gives the Van Buren electoral ticket 875 majority, and adds—"The seven towns to be heard from, from their political complexion last spring, will not vary the above result but a few votes either way."

The Empire State has honored her favorite son in a manner worthy of her character.

The votes in the city of New York have not yet been declared. Returns from Kings county give the Van Buren electoral ticket 312 majority—Duchess a large majority, not all in—Orange 1800—Ulster 5000!

The New York Commercial of Thursday evening, says:

"In Duchess county, we learn the whigs were very inactive, so that the tories have it all their own way.—From Orange, the reports vary. Some say the tories have swept the county by eighteen hundred majority, while others reduce it to a cool thousand.—Kings County has given a majority of 312 for the Van Buren ticket."

A few returns from Virginia—the good old dominion—have been received—the Van Buren ticket has undoubtedly succeeded there by a large vote.

Some returns from Ohio have come to hand—the result in this State we consider doubtful, although many well informed democrats there write us that they are confident of the success of the Van Buren ticket. But let Ohio go as it may VAN BUREN'S ELECTION IS CERTAIN—the great States of Pennsylvania and New York have decided the question, and it now remains to see whether Massachusetts will maintain her "solitary grandeur," eight years longer, or again join the Union.

The triumph of the people is JUST—GREAT! GLORIOUS! FACTION, BRIBERY, DECEPTION, are prostrated—*Let a nation of freemen rejoice.*

EXCELLENT SENTIMENTS!

From the Boston Atlas of Yesterday.

"*Popular feeling.*—We have never witnessed so much excitement in the public mind, as prevails with reference to the recent returns from Pennsylvania. The most lively enthusiasm is every where manifested. Men can hardly realize that the great cause to which they have been zealously and unwaveringly devoted for the last four years—through all its vicissitudes of hope and fear—of adverse and prosperous fortune—promises at last to be crowned with a glorious triumph. There is but one feeling—a deep and sincere thankfulness and gratitude—that the good ship of State has been gallantly borne over the breakers and through the tempest—till the cry of "Land Ho" from the mast-head promises rest to the mariners, and a safe harbor to the storm-driven bark!"

From the Gazette of yesterday.

ALL HAIL PENNSYLVANIA!
WE HAVE THE STATE!
THRICE HAIL PENNSYLVANIA!
LET THERE BE A JUBILEE!
STILL MORE GLORIOUS NEWS!

Then let the shout go forth, and

"Sound the loud trump o'er corruption's dark sea,
A people have triumphed—a nation is free!"

Our Gazette neighbors were so exhilarated on Thursday that they mistook the mizen-mast of their old piratical craft, for their main-royal-mast. We don't care at which, however, they hang Harrison.

☞The Gazette, in pasting old Virginia on their flag yesterday, got it upside down—they will be obliged to reverse most of the victories they now claim, before long, as they did old Virginia yesterday, *to save being laughed at.*

VERY LATE FROM ENGLAND.

By the Westminister, Captain Moore, from London, we have received the Times of October 15th, seven days later than our previous advices.—*N. Y. Star.*

The quarrel between France and Switzerland wears a still more serious aspect. The Times compares it to the late difficulty between France and the United States, and imputes its origin to the arrogance, impetuosity and bad faith of the French Government. Her agents are accused of having attempted to support a charge against Switzerland of having encouraged or connived at the schemes of conspirators domiciled within the Swiss territory for disturbing the peace of other states on terms of ostensible friendship with the cantons. Switzerland in repudiating this accusation is charged with insulting the dignity of France, and required to make reparation.

An expedition of 1000 marines was shortly to embark from Plymouth for the Tagus, under Major Wright.

The Liverpool Cotton market Oct. 13th, was flat. About 1000 bales were sold; no alteration in prices.

The Money market at London, Oct. 14th, was sensibly improved, both in the English and foreign stocks. The Times, however, considers this no evidence that a reaction may not take place, as there is no especial change for the better.

POLICE COURT.

A candid confession is good for the soul.—There was no dodging the question on the part of Mrs. *Frances Brown*,—(it is the court style to call ladies by the names of their lords.)—Being charged by the watch as a common drunkard the Clerk said to her—"What say you Mary Brown to this complaint—guilty, or not guilty?"

Mary.—I am guilty, and always was, and you need'nt think to make me a sober person, by sending me to the House of Correction; for I don't calculate to see another sober day as long as I live, and I'll get drunk the very first day I come out, and have a good spree If I had'nt a husband that I cannot get rid of, I should not get drunk. I married him out of spite, and now I have to suffer for it, and am able to.

Hopeful Youths.—A couple of lads of 19 or 20 years of age, named *Thomas Taylor* and *Ira Sampson*, were brought up for fighting with each other in the street. It appeared that their quarrel commenced in the third tier of the National Theatre, about a dissolute woman. Taylor had been before the Court a week or two previous. To him his Honor said—"Taylor, it is manifest that your course of life is infamously and hopelessly profligate." For the joint benefit of both his Honor added—"For persons so young, you have both made great progress towards the gallows!" *Taylor* was fined $10.00, and costs, and *Sampson* $5.00, and ditto.

Sampson then pleaded guilty to an unprovoked assault on *P. J. Locke*, and was fined $5.00, and costs.

Caught in the fact.—Mr *John Holton*, saw *Michael O'Brien* steal his over-coat from his chaise in North Market street. Mr. Holton "pulled foot after him, and downed him in Charter street." Six months.

The Court held that it was not cold enough on Thursday night to justify *John Gorman* in stealing a foot of wood from a wharf.—Three months. His wife offered her cloak for his ransom.

The American brig Banian, Capt. Inglee, loaded with Turkish produce, sailed from Smyrna, on the 14th September, for Boston; but just as she got beyond the Castle, she was forcibly boarded by a boat from a French man-of-war, from which an officer and several men jumped on board, stating that they suspected them of having two deserters secreted on board, and, notwithstanding Capt. Inglee's protestations to the contrary, they commenced a search; not finding the deserters, they ordered the vessel back to Smyrna. Upon this, Capt. I. hauled down his colors, and abandoned his vessel to the French officer, who brought her to anchor between the Castle and the town. Mr Offley, the U.S Consul, would undoubtedly see Capt. Inglee righted.

Latest from Malaga.—The barque Ganges, Capt. Brown, arrived at this port yesterday from Malaga, whence she sailed on the 11th of October. Capt. Brown states that 6000 men of the Carlist army, were within one day's march of Malaga when he left, and the greatest consternation pervaded all ranks in the city. The shipping in the harbor were crowded with men, women and children, for protection. As the progress of the Carlists had been marked by every excess, and as they more particularly wreaked their vengeance against those places which were in favor of, or had proclaimed the Constitution, the inhabitants of Malaga had every reason to fear the worst consequences, should the Carlists enter the city. Every preparation was making to defend the place. About 5000 militia were enrolled, but had no leaders in whom they had confidence, consequently the greatest fear and alarm existed, and business was at a stand.—*City Hall Books.*

EXHIBITION OF MOSCOW, AND GRAND CONCERT.—The Proprietor of the above splendid Panoramic Spectacle of the awful destruction of Moscow, in order to gratify the numerous applications for tickets from the families in the vicinity of this metropolis, to witness the foregoing sublime representation, has been induced to appropriate THIS EVENING, for the accommodation of such persons who have been prevented by their business and various other causes from attending the same. The purely unexceptionable character of this exhibition is demonstrated from the fact, of the crowds from all classes in the community who have hitherto nightly thronged to witness it. And wishing to enhance the great popularity of the same still further, and to charm the ear, while the eye is delighted thereby, he has made arrangements to present to the public, in addition to the Panorama, a grand musical display, by engaging the American Melodist, who will introduce on this occasion, several of his celebrated effusions, aided by a number of other Popular Vocalists—and the Grand Enchanted Musical Cabinet, an instrument that has caused much excitement in the musical world on account of its acknowledged capacity as a superior accompaniment to the human voice, and the great novelty of containing within itself the entire vocabulary of instruments used in an Orchestra and Military Band.
A distinguished professor will preside at the Cabinet, and display its full powers. n12,

GRAND CONCERT.—At the Town Hall, Charlestown, on Saturday evening, Nov. 12, for the benefit of G. Wiloughway, S. Lawry, C. Mahlman, V. Ganson, E Dexter, and J. Leighton, who were sufferers by the disastrous conflagration of the Steamer Royal Tar on her passage from St John's N. B. to Portland, Me., the 25th of last month. The Public need not be informed that many who escaped with life on that awful occasion were reduced to the utmost distress by the loss of every thing they possessed, and the means as yet of procuring employment for the decent subsistence of themselves and those who are dependant on them for support. An additional inducement may be claimed in the circumstance that Mrs Sellen became a widow by that disastrous event, and has therefore nothing but the unassisted efforts of her own hands to support herself and a number of children. She will be, it is trusted, fully considered in the benevolence that may be manifested on the occasion, as she is to be an equal participator in the amount received. To give effect to this entertainment many of the scientific musicians of Boston and Charlestown have kindly volunteered their valuable services.
For particulars of the performances, see bills of the evening. Doors open at 6½—exercises to commence at 7 o'clock precisely. Tickets, 25 cents. Front seats reserved for the ladies. n11

LAND IN EDINBURG AND LA GRANGE, ME.—Formerly Indian Townships Nos 1 and 2 on the Penobscot river, the second towns from Orono, and third from Bangor, north, are offered for sale in shares of eighty acres each. The tract consists of 13,400 acres of the most valuable lands of Maine, being located in the immediate vicinity of the settled towns and mills of the main river.
It is pronounced by good judges to average ten thousand feet to the acre of available pine, and at least 10 thousand feet more of spruce, hemlock and juniper. The cedar and hard wood lumber is likewise called for continually for summer as well as winter operations.
20 contracts are already made with operators on stumpage for next winter at their own expense, comprising about 100 men, and 70 or 80 oxen and horses. Four good streams for driving logs pass through the tract to the main river, on two of which mills are now being erected for sawing lumber, and one for grinding wheat, will be in order this fall.
Much good hay is made this season from the natural open swails, and two or three hundred tons could be made annually from them, if once cleared of alder growth, which may be done at a small expense. The best encouragement is given to farmers who may wish to locate, as hay, grain, and other produce, will command cash at the door. Sales are made of the land in common and undivided, for the convenience of general operations, but a purchaser of a share may be located, and at an equivalent reduction in price if the soil only is wanted. Further information will be given in this city on application to Benjamin H. Cheever, Marlboro' Hotel, or to Thomas Wentworth, Esq., New York city; W. M. Durand, Hartford, Connecticut; Curtis Meserve, Esq, Portland, Maine; to H. H. Greene or George Anson, Bangor, Me.; G. O. Brastow, Old Town, Orono, Me; Jonathan H. DR. BRANDRETH

WANTS NO COLLEGE, NO INSTITUTION, NO MONOPOLY, NO CHARTER—HE BEING QUITE SATISFIED TO REST ON THE PATRONAGE OF THE PUBLIC FOR THE SUCCESS OF HIS GRANDFATHER'S **VEGETABLE UNIVERSAL PILLS**—*ESTABLISHED IN ENGLAND IN 1751.*

'*Science should contribute to the Comfort, Health and Happiness of Mankind.*"

ON the 18th of May, 1835, these now truly celebrated Pills were first made known in the United States, although in Europe they had been previously before the public nearly a century. The American public naturally viewed them with suspicion, but as on trial they were found what they professed, it was soon displaced by the greatest confidence. They have secured this character, too, under very adverse circumstances, having to contend with the base slanders promulgated by those interested in keeping mankind in a state of error, as regards the functions of their bodies. Dr Brandreth would here impress on his friends and the public generally, that however different may be the action of the pills at different times, that such different action arises not from any alteration in the pills, but from the state of the body they should always be persevered in, until the action is uniform—for they are an effectual assistant of nature, having the same kind of action on the human body that storms and hurricanes have on the air, or that the tides have upon the ocean—they purify. What so judicious as the copying of nature? We see when she wishes to become purified, that she puts herself in commotion, which has the purifying effect. And so we, to induce purity in our bodies, bring about a natural commotion by artificial means, and the experience has taught those who have adopted this course, and who for this purpose have used hese pills, that they were in the right, because the result has teen sound health, or in other words, every organ has become restored to a state of purity consistent with its functions—and although there is many whose bodies are in such a state of debility and suffering, that all which can reasonably be expected is temporary relief—yet, nevertheless, many persons who have commenced with them under the most trying circumstances of bodily affliction, when every other means and medicine has proved altogether unavailing, have been restored to health and happiness from their use—and the consequence is, they are now recommended by thousands of persons whom they have cured of Consumption, Influenza, Indigestion, Dyspepsia, Headache, Pains, and a sense of fulness in the back part of the head, usually the symptoms of Apoplexy, Jaundice, Fever and Ague, Bilious, Scarlet, Typhus, Yellow, and common Fevers of all kinds, Asthma, Gout, Rheumatsm Nervous Diseases, Liver Complaint, Pleurisy, Inward Weakness, Depression of the Spirits, Ruptures, Inflammation, Sore Eyes, Fits, Palsy, Dropsy, Small Pox, Measles, Croup, Coughs, Whooping Cough, Quinsey, Cholic, Cholera Morbus, Gravel, Worms, Dysentery, Deafness, Ringing Noises in the Head, King's Evil, Scrofula, Erysipelas, or St Anthony's Fire, Salt Rheum, White Swellings, Ulcers, some of 30 years standing, Cancers, Tumors, Swelled Feet and Legs, Piles, Costiveness, all Eruptions of the Skin, Frightful Dreams, Female Complaints of every kind, especially obstructions, relaxations, &c.

8900 testimonials have been received from individuals of the highest respectability. Call at Dr B's store and read the original letters, all proving the extraordinary power of Brandreth's Pills in removing diseases of the most opposite character from the constitution. They in fact prove, by the cures they make, that there is no necessity for any other medicine.

Although Dr B. has enumerated by name the above diseases, he is nevertheless of opinion with his grandfather, the celebrated Dr Wm. Brandreth, that there is only ONE DISEASE, an impurity of the blood, which by impeding the circulation, brings on inflammation, and consequent derangement in the organ or part where such impurity of the blood settles—and that it is the different appearances which this inflammation or derangement puts on, that have caused medical men to designate such appearances by various names, but which are in fact only the same disease, with more or less virulence. Dr Wm. Brandreth was so fully convinced of the truth of the above simple theory, that he spent 30 years in experiment and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom—his object being to compose a medicine which should at once purify, and produce by specific action, a removal of all bad humors from the blood by the stomach and bowels, as by the continuation of the use of such a medicine, such humors are sure to be carried off, and the blood assumes a state of purity—and whoever takes these pills, and perseveres with them, will be satisfied that Dr Wm. Brandreth fully attained his philanthropic object. It is now an absolute and known fact, that every disease, whether it be in the head or feet, in the brain or meanest member—whether it be an outward ulcer, or an inward abscess, are all, though arising from many causes, reducible to this one grand effect, namely, impurity of blood.

In all cases they will be found a safe and simple remedy, yet all powerful for the removal of disease, whether chronic or recent, infectious or otherwise; and what makes them particularly adapted for this country, is that there is not the slightest liability to cold when taking them—indeed, the system is absolutely less susceptible of cold when under their influence, than at any other time;—therefore, in this climate, they are invaluable. Neither do they require change of diet or care of any kind. In England, these pills have been the only medicine of many families for periods varying from forty to sixty years, and have always proved effectual in restoring health whenever an aberration from it has occurred.

In many cases where the dreadful ravages of ulceration laid bare ligament and bone, and where to all appearance no human means could save life, have patients by the use of these pills, been restored to good health—the devouring disease having been completely eradicated.

In consequence of the pleasantness of their operation, and the dose not generally being required to be more than four or five pills, (merely keeping in view the drain upon the humors) they are fast superseding every other preparation of professed similar import. Cases may occur where it will be very proper to take twenty or even thirty or more pills—this must be considered with reference to highly inflammatory disease, or when great pain is experienced.

As Brandreth's Pills prevent Scurvy, Costiveness, and its consequences, seafaring men, and all travellers to foreign regions, should not be without them, in order to resort to on every occasion of illness.

N. B. Time or climate affects them not.

Southern gentlemen will find this medicine one which will ensure health to the people on their estates.

CANCERS—Several cases of cure can be referred to—the cure is certain, if perseverance in the medicine is used.

CONSUMPTION—Reference can be made to numbers who have been cured in New York and Brooklyn of this disease.

For sale by B. B. MUSSEY, 27 Cornhill, sole agent of Dr Brandreth in Boston. Also, by Ives & Jewett, Salem—M. D. Philips & Co., Worcester—S. H. Colesworthy, Portland, Me.
